Installation Guide

For complete technical information about this product, including dimensions, accessories, and specifications, see *http://www.bannerengineering.com* and search for datasheet 121521.

WARNING: Not To Be Used for Personnel Protection

Never use this device as a sensing device for personnel protection. Doing so could lead to serious injury or death. This device does not include the selfchecking redundant circuitry necessary to allow its use in personnel safety applications. A sensor failure or malfunction can cause either an energized or de-energized sensor output condition.

¹ Standard 2 m (6.5 ft) cable models are listed.

[•] To order the 9 m (30 ft) cable models, add suffix W/30 (for example, S183E W/30).

[•] To order the 4-pin Micro-style QD models, add suffix Q1 (for example, S183EQ1). A model with a QD connector requires a mating cable.

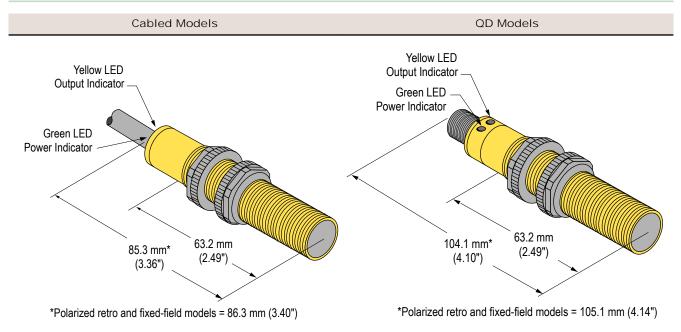

² Use polarized models when shiny objects will be sensed.
